

Smart Glaze™

Powered by Nano Technology

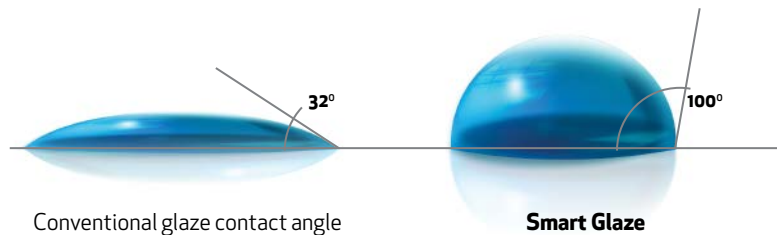

exclusively by
**Sustainable
Solutions**

caroma®

The innovative solution for toilet maintenance and convenience.

- ◉ **Greater hygienic properties** making fixtures easier to keep clean longer.
- ◉ **Alters the surface** of vitreous china with nanoscale technology.
- ◉ Repels liquids and oils and **inhibits the spread of germs and bacteria.**
- ◉ Smart Glaze is **suitable for any application:**

- Commercial buildings
- Healthcare facilities
- Restaurants/hotels
- Transportation centers
- Entertainment complexes
- Sporting venues
- Universities/Public schools
- Multifamily rentals
- Care homes

Hydrophobic properties are measured by the contact angle of a droplet of water. In laboratory tests, **Smart Glaze** achieved angles many times greater than conventional glazes, and testing confirmed that surfaces with higher contact angles are significantly easier to keep clean.
