

fluid kitchen

just got **better**...

The fluid F828 is a fantastic faucet, but we figured out a lot of ways to make it even better. The new F827 faucet is everything that the F828 was - and more!

Product Name:

fluid magnetic pull down Kitchen Faucet

Product Numbers:

Discontinued Model: F828

New Model: F827 (Click for more details)

Product Information: F828 becomes the F827 Nov 2021

Transition:

This is more of a faucet improvement than a new launch, but because we have upgraded so much, for clarity we are introducing the changes as the new Model F827

You would have to really look to see a difference initially, but there are lots of great improvements in this new faucet.

Why the Change:

- fluid is a feature rich, value added product line. We constantly strive to improve our products, making them easier to install and use, last longer and radiate quality and value.
- The F828 is one of our best selling faucets and gets rave reviews from homeowners and installers, but we found ways to make it even better. We have introduced new features under a new model number, (with no price increase).

Why you want the F827:

- Same great look/size; retains all of the initial features plus more
- Faucet now comes completely preassembled for a faster, easier installation
- Now includes 360° or 140° spout rotation options
- NEW screen mesh at hot and cold inlets and pullout hose to prevent debris from entering faucet
- improved laser marking
