Free Standing Tub Filler With Hand Shower

F4013

MB - \$1,821

CP - \$1,548

BN - \$1,821

Your dream bathroom has been painstakingly designed to your specifications and showcases the freestanding tub of your dreams. You want a tub filler that not only completes your vision, but as importantly exceeds your expectations for performance and reliability.

PERFORMANCE

The fluid free standing tub filler fills your tub quickly at 6 gpm (at 45 psig). Crafted out of heavy brass, this tub filler securely attaches to the floor for rock solid, reliable performance.

EASE OF USE

This fluid tub filler utilizes a diverting valve, so water is switched between the hand shower and the tub filler by simply turning a single lever handle. There is no pull out diverter to fail. It's seamless, easy to clean and a joy to use.

TRUST

Fluid is a North American company that has delivered high quality fixtures to people and homes for over 20 years. We design products to last and if you ever have questions, our customer service team is easy to reach and here to help.
