

## Specifications:

- **Stainless Steel Construction**
- **Designed for flexible installation**—it can either retrofit an existing system by replacing a standard shower arm or be integrated into a new installation complete with rough-in valve (all components and valves are sold separately)
- **Two mounting options:** drill into shower wall or drill-free using only the supplied waterproof adhesive
- **Multi-function:** Switch Systems can integrate a showerhead, hand shower, and even a tub spout—using only a non-diverting rough-in valve
- **16" Swivelling Switch Shower Arm** for adjustable positioning
- **Built in Check Valve** prevents backflow
- **Reversible Hose Elbow** installs left or right
- **Optional 65 mm escutcheons** available for larger wall openings (sold separately)
- **Water Inlet** is located at the top installation post
